

EvansConcrete Products Ltd

Environmental Policy

Date of Issue: December 2016

Environmental Policy

With due consideration to the increasing awareness, not only of the global situation but more particularly those of our own local environment, Evans Concrete Products Ltd will ensure that every effort is made to comply with all applicable legislation including any local concerns, throughout the design, manufacturing, supply and installation of pre cast concrete units

As members of the community, Evans Concrete Products Ltd share its concerns and make every effort to ensure that we minimise any adverse effect our operations have on the environment.

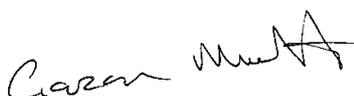

Prior to any process of production of precast concrete, we require authorisation from Amber Valley Borough Council. The authorisation and a programme of upgrading called for and implemented provide us with our legal authority to operate.

Evans Concrete Products Ltd has a commitment to safeguarding the environment as outlined in the following policy statement:

Environmental Policy Statement

It is the aim of this policy to:

- Comply with all existing environmental legislation.
- Commitment to pollution prevention through regularly reviewing waste and water control.
- Continually improve the environmental management and performance by undertaking external audits at waste supply companies
- Promote waste management and waste segregation through regular environmental awareness by undertaking tool box talks and training
- Take environmental issues and factors into consideration in any new developments and improvements made.
- Improve and monitor information regarding the environmental impact and record of the company.
- Respond to the needs and concerns of the community.
- Monitor the environmental impact of the business and strive to continually improve the working practice of the business.
- Never to compromise on environmental issues to achieve other company objectives
- Regular review the environmental policy
- To ensure its continuing suitability and effectiveness and that it will be made available to all relevant stakeholders as appropriate
- Appropriate training and resources will be made available to implement the above policy.

Ciaran Murtagh
